SUGANYA ARUNKUMAR

Senior Web Developer | UI/UX | Front-End | Usability & Web Production

Bengaluru, India | +91-8123721727 | s.suganya.it@gmail.com | Portfolio: behance.net/suganyas

PROFESSIONAL PROFILE

Senior web developer and UI/UX-focused web professional with 16+ years of experience designing, developing, deploying, testing, and maintaining responsive websites across healthcare, hospitality, logistics, education, automotive, commercial products, and professional services. Combines visual design and user-centered thinking with hands-on front-end/CMS delivery using HTML, CSS, Figma, JavaScript, jQuery, PHP, MySQL, Tailwind CSS, and Adobe tools. Experienced in client discovery, workflow analysis, usability testing, web deployment, production support, and team leadership.

KEY HIGHLIGHTS

End-to-End Web Delivery - Owns website work from client requirements and page structure through design, front-end/CMS implementation, usability testing, deployment, updates, and maintenance.

Responsive UI & Web Design - Designs clear, usable website layouts and navigation across client-facing web experiences, balancing visual quality, functionality, and technical feasibility.

Usability & User-Centered Design - Applies user research, workflow analysis, rapid prototyping, usability principles, and testing to identify issues and improve digital experiences.

Web Production & Reliability - Hands-on experience with hosting management, deployment, ongoing website maintenance, production troubleshooting, and root-cause analysis.

Client & Team Leadership - Translates business requirements into production-ready websites; led a team of 5 designers and 2 junior coders and has mentored junior team members.
